

Visa Counter 2000

Visa Counter 2000

This complete unit is mainly used as a visa counter in consulates, embassies and official buildings and has been developed in accordance with BBR standards (Bundesamt für Bauwesen und Raumordnung – the German Federal Office for Building and Regional Planning). The visa counter is for use indoors, and is designed for installation into a wall. The counter is completely ready to install with an installation frame, glazing, counter surface and transfer tray. We also, of course, manufacture accessories for the counter, such as e.g. the DELTA intercom, counter units, shelving and partition walls.

These can be selected from the following list:

Visa 2000 Glazed Window

Bullet resistance class FB 4 / BR 4 – NS
